

Imagine...

Imagine... working in the Risk & Finance IT department and contributing to smoothly running reporting processes in one of the largest risk data warehouses of Rabobank! Huge amounts of data are flowing in and out of this data warehouse, hereby providing data to numerous regulatory and management reporting processes of Rabobank. As Rabobank we need to stay in control of these processes and complexity. As an intern, you can make a difference for Rabobank by designing and developing a solution that gives insight in the health of the operational processes in the and outside of the system. All this is done in close cooperation with team members and the architect. Your contribution will help the team to make the transition to proactive operations!

With each other

Collaboration is at the heart of everything we do. Our Operations team brings talented people together to make sure the system runs smoothly and the team stays in control of the processes.

With you as an Intern, the team consists of 10 team members with a very international background in different roles.

With you

Customer focus, targeting, independency and are clearly essential for the role of intern. In addition, it's important that you recognise yourself in the list below:

- Strong IT Skills (Visual Studio, GIT, VSTS, ASP.net, C#, SQL Server 2016/2017)
- About to conclude your IT study
- Available from Augustus/September 2018
- A good verbal and written command of the Dutch and English languages
- Team player with knowledge of an agile way of working
- Knowledge of the ISO 25010 standard

Growing a better world together

You'll already be aware that Rabobank is a financial services provider for 7.1 million customers in 40 countries. But did you know that we aim to contribute to real change with our 'Growing a better world together' mission? We do so in countless ways, such as:

- We want to share our knowledge about sustainable financial solutions. For example, we offer a discount to corporate clients with a sustainable hallmark.
- As part of a project with Humanitas, we are helping people who are experiencing financial difficulties to get their household finances in order.

Interested?

Do you want to become the ideal version of yourself? We would love to help you achieve this by focusing firmly on your growth, development, and investing in an environment where you keep learning every day. We give you the space to innovate and initiate. In this way, we offer you numerous opportunities to grow and help you exceed your expectations, to do the right thing exceptionally well, and to therefore grow as a professional. In addition, with us (on the basis of a 36 or 40 hours working week), you can also expect:

- A compensation for internships, based on your level of education
- Personal coaching
- A challenging and professional learning environment

Let's meet.

Are you the person we're looking for? Are you ready to join Rabobank as an intern and to make a difference to yourself, our customers and to society? We look forward to receiving your application for this vacancy in Utrecht.

Good to know:

- Applications are open until November 2018.
- If you have any questions about the specific details of this position or the application procedure, please contact Magalie Carlucci via magalie.carlucci@rabobank.nl
- If you have any questions about the specific details of this position, please contact Erik Ruiten, Delivery Manager WRR Risk Data on Erik.Ruiten@rabobank.com
- The application process includes screening. Based on the screening procedures in place at Rabobank, we assess whether new staff are reliable enough to work at Rabobank.
- Everyone is different, and it is exactly those differences that help us become an even better bank. That's why we want to know who *you* really are.
